Royalco Resources Limited Review of Operations 31 December 2011

# Half Yearly Report Period Ending 31st December 2011

Royalco Resources Limited has recorded a profit of \$3,433,339 (\$3,493,619 in 2010) on revenue of \$5,570,231 (\$5,144,601 2010) for the six months period ending 31<sup>st</sup> December 2011.

# Royalty Interests

During the half year significant royalty income continued to be received from Royalco's portfolio of royalty interests. Four out of the ten royalty interests held contributed to revenue.

Whilst the cessation of mining at both Mt Garnet and Dagworth will reduce the number of producing royalties the impact on Royalco's revenue will only be marginal as neither was a major source of income. Conversely, future royalty income has been enhanced with developments at both Bowdens and additional developments at Reefton.

The primary source of royalty income remains the *Reefton* royalty interest where 2,500 ounces of gold was received pre New Zealand withholding tax -2,125 ounces post the withholding tax.

The prices at delivery during the period averaged in excess of A\$1600 per ounce resulting in royalty income of approximately A\$3.5 million for the period.

The operator, Oceana Gold, has advised that substantial drilling/development programs have been commissioned on additional targets in the Reefton region. These include the Blackwater and Big River Prospects which will yield additional royalty payments to Royalco once these projects have been brought into production.

Small contributions from the royalty at Mt Kelly continue to be received.

In various recent presentations Kingsgate Consolidated Limited has expressed a desire to commence production on the *Bowdens* silver project by 2014. The Royalco royalty interest on this project commences at a 2% net smelter return until US\$5 million has been received then reverts to a 1% net smelter return for the life of the mine.

#### **Exploration**

In the Philippines soil sampling is ongoing in the Yabbe tenement whilst the renewal of the Pao tenement is being progressed. Two substantial typhoons hit this region of Nueva Viscaya during the period slowing down field work.

An application for a third tenement in the region, Conwap, has been lodged and once completed Royalco will hold a dominant and strategic tenement position on major interpreted structures in a corridor south east of Oceana Gold's Didipio Project.

At Gambang, where Vale has an option to purchase, geophysical interpretation is ongoing prior to the next round of drilling.

Royalco Resources Limited Review of Operations 31 December 2011

Royalco has established a presence in East Africa, based in Ethiopia, and is currently reviewing regions in both Ethiopia and Uganda.

A number of Memorandums of Understanding were executed with a range of parties during the period however none have been progressed to date either for failing subsequent due diligence or the vendors developed unrealistic expectations as to consideration. Royalco wishes to spend money on exploration rather than merely buying a tenement position.

Tenement applications were suspended in Ethiopia during the last quarter of 2011. This suspension has allowed Government authorities to resolve a substantial backlog of administrative issues outstanding and is due to be lifted shortly.

In Uganda Royalco has acquired the geophysical data generated from the Block 1 aerial survey sponsored by the World Bank in 2008. This data has been interpreted by the company's consultant and combined with a commissioned photogeological study of the region. Identified areas of interest are now being pursued.

#### Note 1. Significant accounting policies

These general purpose financial statements for the interim half-year reporting period ended 31 December 2011 have been prepared in accordance with Australian Accounting Standard AASB 134 'Interim Financial Reporting' and the Corporations Act 2001.

These general purpose financial statements do not include all the notes of the type normally included in annual financial statements. Accordingly, these financial statements are to be read in conjunction with the annual report for the year ended 30 June 2011 and any public announcements made by the company during the interim reporting period in accordance with the continuous disclosure requirements of the Corporations Act 2001.

The principal accounting policies adopted are consistent with those of the previous financial year and corresponding interim reporting period.

#### New, revised or amending Accounting Standards and Interpretations adopted

The consolidated entity has adopted all of the new, revised or amending Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') that are mandatory for the current reporting period.

Any new, revised or amending Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

#### Note 2. Operating segments

Identification of reportable operating segments

The consolidated entity is organised into two operating segments: royalty and exploration. These operating segments are based on the internal reports that are reviewed and used by the Board of Directors (who are identified as the Chief Operating Decision Makers ('CODM')) in assessing performance and in determining the allocation of resources. There is no aggregation of operating segments.

The CODM reviews both adjusted earnings before interest, tax, depreciation and amortisation (segment result) and profit before income tax.

The information reported to the CODM is on at least a monthly basis.

Types of products and services

The principal products and services of each of the two operating segments are as follows:

Royalty Management of resource based royalties

Exploration exploration of mineral tenements in the Philippines

# INDEPENDENT AUDITOR'S REVIEW REPORT TO THE MEMBERS OF ROYALCO RESOURCES LTD AND CONTROLLED ENTITIES

#### Report on the Half-Year Financial Report

We have reviewed the accompanying half-year financial report of Royalco Resources Ltd and controlled entities ("Group"), which comprises the statement of financial position as at 31 December 2011, and the statement of comprehensive income, statement of changes in equity, cash flow statement for the half-year ended on that date, selected explanatory notes and the directors' declaration of the company at the end of the half-year.

Directors' Responsibility for the Half-Year Financial Report

The directors of the company are responsible for the preparation and fair presentation of the half-year financial report in accordance with Australian Accounting Standards (including the Australian Accounting Interpretations) and the *Corporations Act 2001*. This responsibility includes designing, implementing and maintaining internal control relevant to the preparation and fair presentation of the half-year financial report that is free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances.

#### Auditor's Responsibility

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 *Review of an Interim Financial Report Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, we have become aware of any matters that makes us believe that the financial report is not in accordance with the *Corporations Act 2001* including: giving a true and fair view of the entity's financial position as at 31 December 2011 and its performance for the half-year ended on that date; and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*. As the auditor of Royalco Resources Limited, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express audit opinion.

#### Auditor's Independence Declaration

In conducting our review, we have complied with the independence requirements of the *Corporations Act* 2001.

#### Conclusion

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of Royalco Resources Ltd and controlled entities ("Group") is in accordance with the *Corporations Act 2001*, including:

- (a) giving a true and fair view of the entity's financial position as at 31 December 2011 and of its performance for the half-year ended on that date; and
- (b) complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.
